Notes Competition shown is for allintitle:kw searched on Google

Links volume requirement is different for optimized and non-optimized pages.

Non-optimized pages need twice as many links to rank for the given keywords

Volume >150 indicates a very high back-link support. The value can go up to 10,000 links for highly competitive keywords

Links volume data is an estimate. The competition can change significantly with time.

Results may appear 6 to 8 months after the given volume of links have been created
